

PROJECT PROSPECTUS DOCUMENT FOR RIVER TRAINING WORKS

1. BASIC PROJECT INFORMATION

Applicant Details

Name of the Applicant :
Address :
Phone & Fax No. :
E-mail address :

Name of the Environmental focal person :
Address :
Phone & Fax No. :
E-mail address :
Qualification/Designation :

2. PROJECT DETAILS

Name of the Project :
Location of the Project :
(Attach maps showing the location of the project and plan layout)

Brief description of the Proposal :

The Objective(s) of the Project :

NB: Wherever your project is not relevant to some of the information requested please write “NA” (Not Applicable)

3. OVERALL PLANNING

- i. Is the project in line with any development plan?

- ii. Estimated project start date :
- iii. Estimated project completion date :
- iv. Funding Agency :
- v. Total estimated project cost :
- vi. Enclose the design of river bank protection works:

- vii. Provide results of the hydrological studies of the area (rainfall data, estimation of flood hydrograph, etc.) if available for the project site:

Attach map(s) or layout plan showing the detail of infrastructures present in the vicinity of the project site.

4. PUBLIC CONSULTATION

Name	Geog	Village	Issue	Consultation date

Attach details of the consultation signed by the affected parties

5. PROJECT ECOLOGICAL DESCRIPTION

Land use and vegetation

Land use	Area	Owner	Affected households

6. EXCAVATED MATERIALS

The total estimated excavated materials from the site

Has a dumpsite been identified for disposal of the excavated materials or are they going to be reused? Explain (Dumping of excavated materials in an unidentified dumpsite is strictly prohibited).

7. WORKERS AND MACHINERIES

- i. Total laborers required for the project :
 - ii. Work-camp locations (specify) :
 - iii. Waste Management Plan :
- (Use additional sheet if required)

Details of Machineries

Equipment	Capacity	Numbers Required	Remarks

8. CONSTRUCTION MATERIALS

Details of materials that would be required for the project

Material Type	Quantity	Unit	Remarks

9. ENVIRONMENTAL ASPECTS

- i. Does the Project site fall in protected areas like wildlife sanctuary, National Parks, Biological corridors etc.?
- ii. List any threatened or endangered species of flora and fauna known to be on or near the project site.
- iii. Will the project require surface water withdrawals or river course diversion?

- iv. What impacts are foreseen on surface water quality due to the proposed project and state their mitigation measures?

- v. What level of noise would be generated at the site?

- vi. What type of emissions to the air would result from the proposed project and state what mitigation measures are identified?

10. SOCIAL AND CULTURAL IMPACTS

- a. Does the proposed project fall in the private land/private property?

- b. Approximately how many people and households would benefit from the project?

- c. Are there any displacements of structures? If yes, please specify numbers of:-
 - i. Houses :
 - ii. Electric poles :
 - iii. Pipe lines :
 - iv. Others (specify) :

For any of the above structures to be displaced, prior approval should be obtained from the concerned person(s)/organizations and necessary arrangements have to be made accordingly. And also provide what alternative arrangements have been made to mitigate the impacts.

- b. Does the project fall in the private land/private property?

- c. Generally describe any landmark or evidence of historic, archaeological or cultural importance known to be on or next to the project site?

11. ENVIRONMENT MONITORING

- a. Who will conduct the environmental monitoring at project site?

- b. What is the monitoring schedule?

12. NO OBJECTION CERTIFICATES

To get an Environmental Clearance for a project, it is important to obtain and attach the relevant NOCs from all the affected parties both government and private parties.
